THE COATS OF ARMS OF THE WORLD.

(RUSSIA.)

Uncolored fac simile showing size.

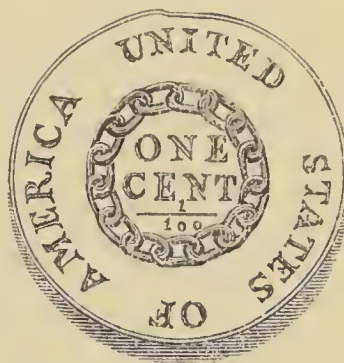

This magnificent chart contains accurate representations of the armorial bearings of the nations of the world, all of which are beautifully and correctly emblazoned in gold and silver, and their true colors.

As a sheet for framing, it is an acquisition to any drawing room, and is indispensable in the library or study.

As a guide to determine the nationality of foreign coins or postage stamps, (most of which bear the issuing countries' arms), it will be found of great service. While cut up and inserted in stamp albums, they will be found to add much to the appearance of the page.

Printed on fine heavy paper for framing, or on the same quality of thin paper for inserting in albums. Price, 50c.

PREFACE.

In presenting a new edition of *THE COPPER COIN CATALOGUE* to the favorable notice of American Collectors, Messrs. Scott & Company would respectfully call their attention to the following Rules, which are designed to facilitate the despatch of business and insure every communication being answered on the day of its receipt.

POSTAGE.—The prices set opposite the pieces in this book do not include the postage, which should be added at the rate of two cents for two ounces, and ten cents for registration. The latter is optional, but if not registered they will be sent entirely at the risk of the purchaser.

CANADA.—No packet weighing over 8 ounces can be sent by sample post, the postage on which is 10 cents irrespective of weight.

REMITTANCES should be made by draft on New York ; P. O. O., or by registered letter. Small amounts may, however, be sent by ordinary letter, in bills or unused U. S. postage stamps of low denomination.

CONDITION.—The pieces herein catalogued are given in three or four degrees of preservation, and valued accordingly. Cents and half cents placed under the head of "fair" have the dates perfectly distinct.

EXTRAORDINARY FINE PIECES are not catalogued, as they are seldom to be had, sometimes commanding very high prices, a 1795 cent having lately been sold at auction for \$100.

DATES.—In filling orders for foreign coins, when more than one date is given, as Hayti 1829-46, we supply any year between this date; where a special year is required the price will often be higher, as we price the cheapest variety.

WANTED TO PURCHASE.—We are always glad to buy the following dates of U. S. *Cents*—1793, 1799, 1804, 1809. *Half-Cents*—1793, 1796, 1802, 1811, and any proof pieces. Also, the early dates of cents, half-cents, or colonials, if uncirculated; other pieces we have seldom a chance of using, being constantly in receipt of large invoices from our regular agents.

AUCTION SALES.—Messrs Scott & Co. have unequalled facilities for cataloguing large collections of coin for public auction, and for securing the representation of every American collector. Terms—25 per cent.; this includes all charges for cataloguing, printing, auctioneer's fees, advertising, and all other expenses. Messrs. S. & Co. have representatives at all auction sales in the United States, and execute all orders entrusted to them with care and judgment, the terms being 10 per cent. of the amount purchased.

AUCTION CATALOGUES will be sent, whenever practicable, to every subscriber to the *COIN COLLECTOR'S JOURNAL*, and to all purchasers through them at previous sales.

PRICED AUCTION CATALOGUES can always be supplied of any late sale, at the rate of fifty cents for each day occupied at the sale.

COINS ON APPROVAL.—S. & Co. are always prepared to send coins for selection to large buyers. Collectors not personally known will please furnish New York City references.

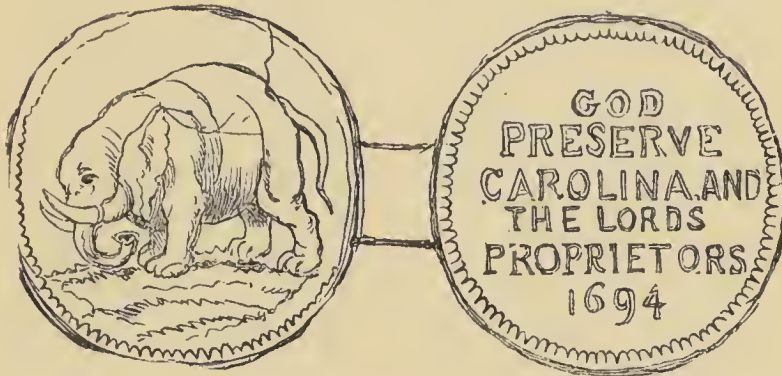

ILLUSTRATIONS.—A 24 page Supplement, containing illustrations of copper coins not printed in this, can be had of the publishers, price 50 cents, post free.

THE COIN COLLECTOR'S JOURNAL, a beautifully illustrated 16-page monthly, will be found an invaluable companion to every numismatic amateur. Subscription \$1.00 per year, in advance.

THE COINAGES OF THE WORLD, ANCIENT AND MODERN.

This work is intended to give correct information on a subject of which no educated person can afford to be ignorant; and yet, till the publication of this volume, it has been impossible to obtain a general knowledge of the *Coinages of the World* without reading through dozens of heavy quartos, at great loss of time, and probably heavy expense.

By the aid of this book, any person can at once determine the nationality of any coin they may possess, and obtain much interesting information concerning the cause which led to its issue. It is well filled with beautifully executed representative coins of every people, age and country, and is the only comprehensive book on the subject ever published. The paper, press-work and binding are all of the very best. No library can be complete without it.

PRICE—CLOTH, \$2.50. HALF MOROCCO, \$3.50.

For sale by all booksellers, or will be sent, post free, on receipt of price, by the publishers,

CRITIQUES.

The New York Times of December 27th, says:

“What every student of Coinages—not the mere collector of old coins—wants to know.”

The New York World of November 27th, says:

“Welcome to all amateur and experienced numismatologists, to whom it will not only convey valuable information, but be useful as a work of reference.”

The New York Evening Post of November 29th, says:

“A work of great interest to numismatists and collectors of coins. * * * The text, which is full, is illustrated by several hundred engravings of the principal coins of all ages and countries.”

The New York Daily Graphic of December 23d, says:

“Shows a great deal of special study and painstaking research. It is a monograph full of interesting and curious information, and besides its ample learning, gives several hundred engravings of the principal coins. The various appendices to the volume add materially to its convenience and value for reference.”

The American Journal of Numismatics of January 1st, says:

“This is an octavo volume of 306 pages, with a large number of wood-cuts of examples of both ancient and modern coins. It has several appendices, giving lists of the French sovereigns, explanations of the abbreviations on Roman coins, a list of Roman families who have issued coins, and other matters of interest. The text is sufficiently elaborate to give the general reader a good idea of the subject, and to excite his interest in the science of numismatics. From the brief examination we have been able to give it, we judge it to be one of the most valuable and compendious books on coins, especially for those collectors who have not the time or inclination to consult the ponderous quartos of the old writers, which has yet appeared.”

The Coin Collector's Journal of January 1st, says:

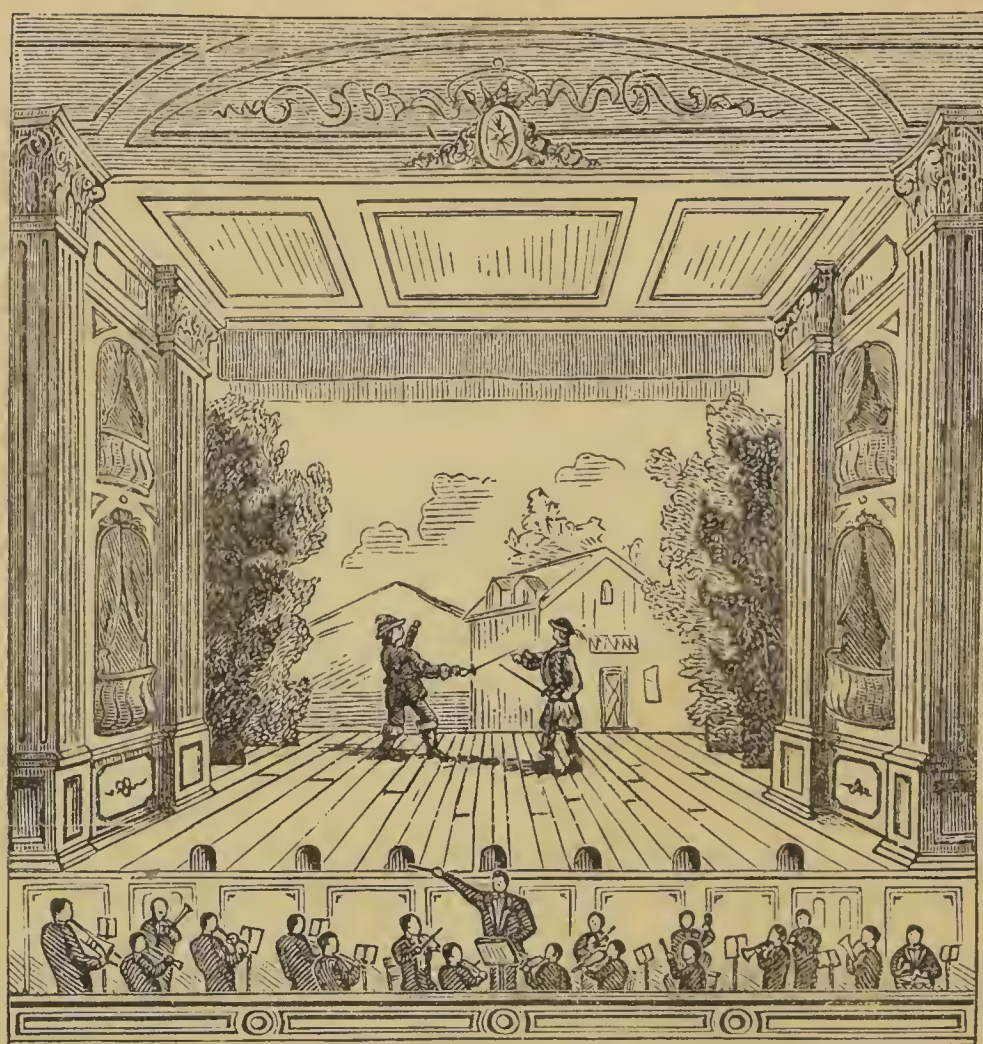

“This is decidedly the most important work on numismatics that has appeared during the past year, and will doubtless be the means of starting many new collections, as it is written in popular style, and occupies a field distinctly its own. The first chapter introduces us to the first coin, and we are gradually led from the coins of the Greek Island of Ægina, to those of Athens, Corinth and Macedonia; from Miletus and Ephesus to Egypt and Judea; from Græcia Magna to Rome, and so down through the Byzantine Empire to Mediæval and modern Europe, including also Asia, Africa and America (the coins of our country and England being very fully described), giving fine engravings of all the principal types of each, till every coin-issuing State or Colony has been noticed; in fact, it is more than a coin book, it is a short history of the world, and should be in every house.”

Without counting the endless pleasure to be derived from acting or witnessing the performance of Seltz's American Boys' Theatre, the sitting up, mounting and performing these Plays will be found to give more pleasure and profit for the money than the same amount expended in any other way. All the marvelous scenic effects of the modern stage can be successfully imitated, by any boy of ordinary ability, on these miniature stages, by the exercise of a little study and patience. They have been proved of incalculable benefit in developing a boy's talent, in the various faculties called into play. His mechanical invention is brought out in constructing his theatre; his artistic genius is improved in carefully coloring the characters and scenery, and his elocution perfected in reading the speeches of the different actors.

Scott & Co. would caution the public against purchasing worthless imitations, as the Plays of SELTZ'S AMERICAN BOYS' THEATRE are the only miniature theatricals ever published, giving full directions for working, &c. Every piece of this admirable series is put together and tested by professionals before being issued to the public, insuring the correct working of every piece.

TRIFET, 61 Court Street, Boston, Sole Agent for the Eastern States. The Plays can also be had of all Booksellers and Newsdealers in the United States, and wholesale of THE AMERICAN NEWS COMPANY.
